- Duties included operating CNC routers, finishing machined parts and training employees.
- **Supervisor:** Dan Smullen, [dsmullen@xpmanufacturing.com](mailto:dsmullen@xpmanufacturing.com) and Luther Cifers, (434)-392-3233

## Projects

**Robotic Whiteboard Eraser** at VCU; Richmond, VA, 08/2018 – 05/2019

Part of a 4-person team designing a robot to erase class whiteboards. I was involved in much of the overall design process and written project proposals. However, my main focus was to design the circuitry and program the Arduino micro-controllers used for the control panel.

**Revamping Inventory System** at YakAttack, Burkeville, VA, 2015

Sole member of project team reporting to supervisor Dan Smullen. The project goal was to catalog every product made by the company and subdivide each product manufacturing process into individual stages then to assign a unique identification number to each product at each stage of its' manufacturing process.
